

ESC201 Introduction to Electronics Lab Demonstration Videos

Lab 5: Normal Diode and Zener Diode: I-V Characteristics and Applications

Some old demonstration videos on diode circuits (for IV characteristic, clipper, clamper, half-wave rectifier):

[You can watch some old demos on diode circuits here](#) (total watch time is 20 minutes).

Topic-wise video watch time:

1. Diode IV characteristic – 9 minutes
2. Diode Clipper with DC Bias – 5 minutes
3. Diode Clamper – 4 minutes
4. Diode Half-wave Rectifier – 2 minutes
